TADELAKT

Thin decorative plaster

i.design TADELAKT is a decoration plaster, 100% natural and ready to use. i.design TADELAKT is a perfect alternative to tiles in bathrooms, spas, and wet rooms, as it is in Morocco. Completely natural i.design TADELAKT is produced with natural hydraulic lime, natural additives and fine sands to reduce cracks.

Properties

- i.design TADELAKT is a traditional decorative Tadelakt which is water-resistant and excellent for kitchens, and bathrooms when protected with "savonite"
- It can be applied directly to all lime, lime and cement, cement or gypsum board substrates. For other walls, it requires application of PRIMER SAN TOMMASO
- i.design TADELAKT is bright and can be easily colored.
- Because of its admixtures, it reduces the risk of cracks
- More crack-resistant than other Tadelakt made from Marrakech lime
- Very breathable
- Naturally mold-resistant
- Natural and green

Pigments

- Natural and artificial pigments

Contraindications

- Do not use acid detergent to clean and protect the Tadelakt. Use black soap only
- Do not apply outside.
- Do not create any sgraffito if the tadelakt has to be in contact with water (a bath for example)

Packaging

55 pound bags
