PERFECT FOR THE 2-4 MAN CREW

Why go through all the hassles of towing a mixer to a jobsite, when the MIX 120 Plus can make a wheelbarrow of mortar, stucco, grout or dry pack cement every 3 minutes. In fact, vertical shaft mixers deliver so much mixing torque that the MIX 120 Plus can out produce a 2 bag towable mixer when making dry pack cement.

DUST GRATE INCLUDED

The MIX 120+ includes the **iDUST®** Dust Grate attachment. The **iDUST®** attachment fits on top of the 120+ and connects to a HEPA dry vacuum to safely pull dust downward.

OPTIONAL OPEN GRATE

The standard open grate is optional for materials like fireproofing

OUTLET

Discharge of material is very controlled.

Whether you need a trowel, a bucket or a wheelbarrow full of material, it's all there with a twist of your arm. MIX 120+ discharge as seen from below.

MIX ANYWHERE

The 120+ can go anywhere just roll it through standard doorways. In addition, the mixing action is neat and controlled, so the mud stays in the drum, and the mix discharge is equally clean. **Mix indoors without making a mess!**

VERTICAL SHAFT MIXERS ROCK!

The paddles are always in the mix, working hard. Material is blended without air entrapment, and even stiff muds are mixed thoroughly and quickly. Rubber paddles are also available.

REVERSE IT

If the material being mixed starts to clump up or separate, no problem, just hit reverse for a few seconds, then back to forward. The ability to switch from **forward to reverse** ensures that all types of materials mix well. Bring on the tough stuff!
